Phased Approach to Sustainability

Phase 1 – Contract with Basic Services Established

Phase 2 – Statewide Exchange Coverage and Development of Value-Added Services; 30-Month Bridge Funding

Phase 3 – Self Sustainability

Sustainability Update

30 month 'bridge' funding period – Feb 2014 through Aug 2016 based on approved Sustainability Framework

Stakeholder	Calculation Metric	% of Total
Hospital	Staffed Beds	45.00%
Medicaid (State)	Enrolled Lives	10.00%
Payers	Covered Lives	45.00%

Interoperability Workgroup

- The goal of the EHR | HIE Interoperability Workgroup is to create an integrated marketplace of EHR capabilities in which the interfaces between EHRs and HIEs are consistent across multiple states
- The workgroup has developed a set of specifications that will ultimately allow for “out-of-the-box” EHR connectivity, to simplify and align the process of EHR and HIE development
- Partnership with Healtheway
- Current work includes Provider Directories and HISP and HISP exchange
