Dorothy A. Spears-Dean, Ph.D.
Public Safety Communications Coordinator,
Service Management and Delivery
Virginia Information Technologies Agency (VITA)

Dear Ms. Spears-Dean:

In response to your advertisement for PSAP representatives on the Regional Advisory Council (RAC) for E9-1-1 Services Board, I am pleased to submit my resume for your consideration.

I believe I am a strong candidate for this position, having worked towards the betterment of the PSAP community in the Commonwealth for several years as a Virginia Chapter of NENA officer and past-president, and serving on the E9-1-1 Services Board's PSAP Grant Committee. My goal over the years has been to unify the Virginia PSAP community so meaningful progress can be made in advancing the Commonwealth towards Next Gen 9-1-1 services.

Since 2010, I have been preparing our department for the day when i3 Standards are adopted. I began this process as we were preparing our Request for Bids on a new E9-1-1 phone system by engaging our regional partners in meetings regarding NG9-1-1, ESInet, and data sharing. However, we soon learned technologies had not advanced enough within the Commonwealth to make this reality. The main issues identified were the lack of progress by the E9-1-1 Services Board towards defining NG9-1-1 and addressing the state-wide standards needed for connecting PSAP to PSAP in a secure data network needed for a regional ESInet.

I have been very pleased by the progress the E9-1-1 Services Board is making towards NG9-1-1 services by developing a "game plan" for the Commonwealth. I would like to add my services and experience to these efforts by representing Region 1 on the Regional Advisory Council.

Thank you in advance for reviewing my resume and considering me for a representative. I look forward to hearing from you soon. Please contact me by the phone number on the attached resume or by email at weesea@chesterfield.gov to answer any questions.

Sincerely,

Allan L. Weese, ENP

EXPERIENCE

AUTOMATION COORDINATOR Sept. 2012 – Present
CHESTERFIELD COUNTY EMERGENCY COMMUNICATIONS CHESTERFIELD, VIRGINIA

- ✦ Project Manager for various information technology projects including E9-1-1 phone system replacement.

Dorothy A. Spears-Dean, Ph.D.
Public Safety Communications Coordinator,
Service Management and Delivery
Virginia Information Technologies Agency (VITA)

Dear Ms. Spears-Dean,

Please accept this letter in support of Allan Weese as a PSAP candidate for the Regional Advisory Council (RAC) for ISP Region 1. Allan would make an outstanding representative to this group based on his extensive knowledge of 9-1-1 service delivery, participation on the 9-1-1 Services Board's Grant Sub-committee and involvement with statewide professional organizations such as APCO and NENA. We understand the time commitment the RAC will require, and fully support his involvement in this important initiative.

Sincerely,

Rich Troshak
Chesterfield ECC
