lunenburg911@meckcom.net

Project Description:

Total Project Cost \$700.00

Amount Requested: \$700.00

Statement of Need:

Lunenburg County is a rural area and is economically challenged and has been affected by recent economic cutbacks. This upgrade is needed to to offer county citizens a high level of public service and is vital to the operation of all aspects of our computer network including our mapping and CAD systems.

Comprehensive Project Description:

The objective of this upgrade is to enhance our network by replacing three 10/100 network hubs with one 48 port gigabit switch. All three network hubs will be replaced by the new network switch and will add to the speed and reliability of our network. If funding is made available the project will be completed within 30 days of the arrival of funds.

How will the equipment purchased will support future technologies for PSAP readiness?:

The new network switch will be compatible with any equipment upgrades made to the PSAP.

Budget and Budget Narrative:

1 Dell Power Connect 2748 Managed Network Switch \$700.00 as quoted by Dell.

Evaluation:

Project will be evaluated by the purchase of the equipment, installation, performance of the equipment and being able to provide enhanced services to our community. It is also important for Lunenburg County to keep up with technological changes.
