Project Description:

Total Project Cost \$17,687.00

Amount Requested: \$17,687.00

Statement of Need:

The specified software upgrade will allow multiple databases that the county currently utilizes to be interconnected to share resources.

Comprehensive Project Description:

This project involves the purchase and installation of ArcGIS Server Standard Enterprise for Windows (up to 4 core licenses). The software will allow interoperability among the various other software programs the county uses for wireless E911 mapping. The software will be installed by the IT department upon delivery, which can be within two days of grant award.

How will the equipment purchased will support future technologies for PSAP readiness?:

This software allows interoperability and interconnection of the different mapping and GIS systems currently in use by the county.

Budget and Budget Narrative:

A detailed cost estimate from the vendor is included as an attachment.

Evaluation:

The GIS Specialist, along with the PSAP Manager and IT Director will review and evaluate this software for

proper operation upon installation of the product.
