Project Description:

Total Project Cost \$9,320.00

Amount Requested: \$9,320.00

Statement of Need:

This project would provide equipment and software for purchase of a backup emergency radio console.

Comprehensive Project Description:

The project includes the purchase and installation of a backup emergency radio console to use at a still-to-be determined location. This would be established to maintain the necessary radio communications if primary PSAP radion communications were compromised. After utilizing the appropriate mechanisms for procurement, the remote radio console will be purchased, installed, and tested during the upcoming fiscal year.

How will the equipment purchased will support future technologies for PSAP readiness?:

Funding for this project promotes the ability of the 9-1-1 Center to maintain one of the essential components of a PSAP (dispatching incidents to field personnel)

Budget and Budget Narrative:

General expected costs (from price descriptions on Internet sites and Consultant) - \$9,320

Evaluation:

After all installations are complete specific tests will occur to verify functionality. This will include regular checks to verify functionality as well.
