thanson@albemarle.org

### Project Description:

**Total Project Cost** \$29,430.00

**Amount Requested:** \$29,430.00

### Statement of Need:

We are requesting this equipment replacement assistance from the wireless board under the current Continuity and Consolidation and Enhancement Priorities. Our PSAP is a consolidated PSAP with three jurisdictions. We recently went through a software upgrade of our PSAP emergency telephone equipment but because of the current fiscal situation we do not have the funding to make this hardware equipment upgrade.

### Comprehensive Project Description:

The goal of the ECC is to purchase 15 Dell Opti960 w/serial card, DVI adapter, RAID1, Green/Quiet PC's and 15 ELO 19" Touch Screen Monitors to replace our existing equipment that is presently over 5 years old. If this grant request is approved we will purchase this equipment from a acceptable vendor and have them installed in our PSAP. The projected timeline is 90 days from receipt of grant funding. This would provide us with new up to date hardware and software in our PSAP.

### How will the equipment purchased will support future technologies for PSAP readiness?:

This equipment will replace old equipment that is in need of upgrade already in use by our communications staff.

**Budget and Budget Narrative:**

15 - 1346 PC's - \$20190 15 - 616 19" touch screen monintors - \$9240 Total grant request \$29430

**Evaluation:**

Once the equipment is installed we will develop a report back to the wireless board advising the old equipment has been removed and the project is complete.
