Project Description:

Total Project Cost \$27,448.00

Amount Requested: \$13,242.00

Statement of Need:

A \$14,206 payment for deferred back maintenance is required of the PSAP for the project to proceed. This funding is available from the PSAP's wireless account.

Comprehensive Project Description:

To plot Phase II calls. Vendor, InterAct, tech support says upgrade should help us with this and other problems, e.g. mapping screens turn dark blue and unreadable, case numbers assigned automatically only to one fire or EMS agency per call, all Virginia DMV-assigned driver's license numbers rejected on initial input, call update rejected during dispatch of call. Project implementation: 90 days. Project evaluation: Within 30 days after implementation.

How will the equipment purchased will support future technologies for PSAP readiness?:

Excluding reliable z-plotting, undetermined.

Budget and Budget Narrative:

Project configuration and Implementation Services \$10000; 3rd party software items \$3242. See InterAct Quote attachment, Option 1.

Evaluation:

Resolution of problems specified will constitute success.
