COMPREHENSIVE PROJECT DESCRIPTION

Describe how the education/training is 9-1-1/public safety communications specific and how this will benefit E-911 and the employee(s) and/or PSAP.
The PSAP for King William County plans to utilize the PSAP Education Grant to foster 911 education. This is expected to be done by sending two of our dispatch and/or Supervisory staff members to two different APCO/NENA Conferences.

King William will be sending two staff members to the Fall 2016 Virginia APCO/NENA/Interoperability Conference in Roanoke. We also plan to send two staff members to the Spring 2017 APCO/NENA Conference in Virginia Beach.

All classes are geared towards public safety communications. Most are taught by employees still working in the same field. A lot is learned by sharing of experiences by others which is a great benefit in the public safety communications field.

EVALUATION

Describe the evaluation process that will be used to determine if participation in this education/training benefited the PSAP and/or supported E-911 and GIS.

Our agency does not have a detailed evaluation process. We are able to determine participation benefits by the knowledge and information the participant brings back to our agency and shares with the communications operators that were not able to attend the education/training. Notes are reviewed as well as concepts and ideas. Attending these training sessions also allows us to work with our Region as well, positioning King William alongside with our Regional Partners.
