

Virginia e-Identity

Commonwealth Authentication Service (CAS)

Business Drivers

- **Coordinated Federal and State efforts are addressing health care reform.**
- **Efforts are being driven by the American Recovery and Reinvestment Act (ARRA) and the Patient Protection and Affordable Care Act (PPACA).**
- **There is significant Federal funding assistance available to the states from these Acts.**
 - Relevant provisions in ARRA provide funding for the Health Information Exchanges (clinical information exchanges) as well as a provider incentive program for hospitals and professional practices to adopt, implement, or upgrade and meaningfully use certified electronic medical record systems (EMR).
 - Relevant provisions in PPACA include funding an expansion of Medicaid (~40%+ increase in members) and the Health Benefit Exchange (insurance exchange)

Houston, We Have A Problem

"On the Internet, nobody knows you're a dog."

The Problems

- **Feds (HHS) estimates 16% of Virginia Medicaid Eligibility records are in an “error” status**
 - > Represents hundreds of millions of dollars
 - > Pressure on states by Feds to correct the problem
 - > Eligibility fraud continues to grow
- **Duplicative Processes**
 - > Eligibility processes performed by multiple agencies
 - > Budget deficit can no longer support duplication
- **No fully automated Commonwealth level communication exists between agencies for authenticating a citizen’s identity**

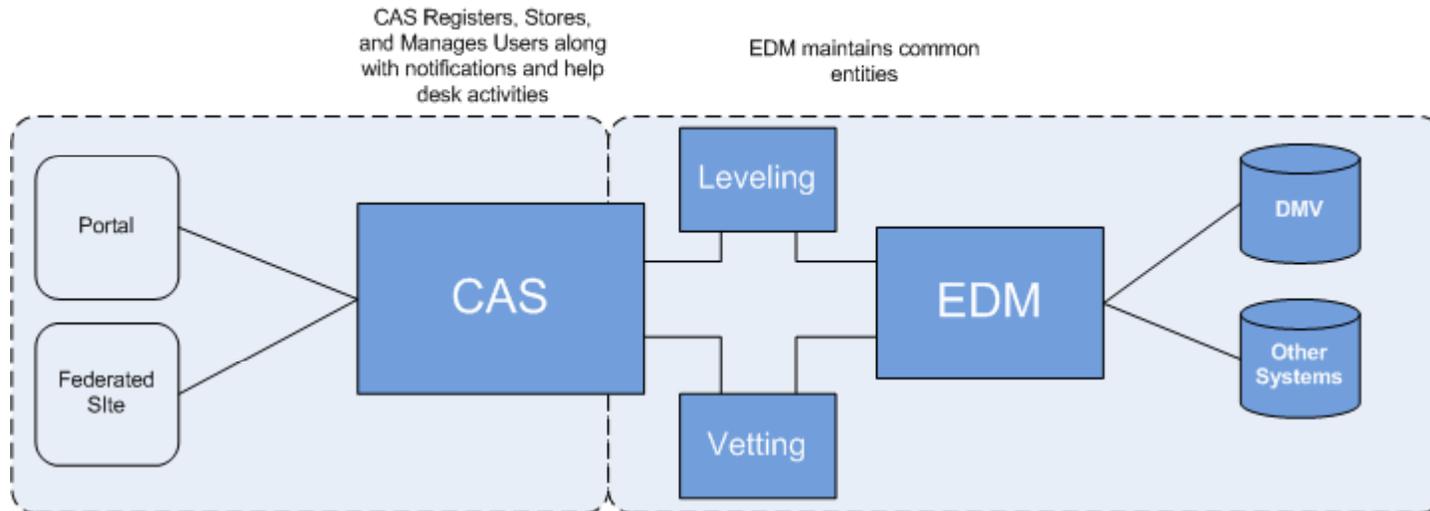

What Are We Doing About It?
