

ITAC Briefing

Nelson P. Moe

Chief Information Officer of the Commonwealth

8/3/2015

Introduction

- Nelson's background
 - Montana born; Virginia resident since 1991
 - Military service (~ 20 years in U.S. submarine force)
 - Private sector (startups and small companies)
 - House of Representatives (14 years; three as CIO)
 - Ninth week as CIO of the Commonwealth

Agency Input and Issues

CIO is reaching out to agency heads to discuss:

- Current issues
 - Urgent vs. important (service reliability)
- Inputs on the way forward
 - Cost
 - Agility/time to establish new services
 - Feature sets

Questions/Conclusion

- My “ask” of the ITAC:
 - Identify the agency and institutional issues for resolution during our journey to the post-CIA contract state
 - Support for an improved cyber posture (Win2003; phishing)
 - Generate a “one voice” to consistently advocate for IT/cyber resources and policy support

Very few worthwhile things in life are easy.

Time, tide and technology wait for no one.
