NIEM OVERVIEW

NIEM connects communities of people who share a common need to exchange information in order to advance their missions. **NIEM provides a foundation** for information exchange between federal, state, local, and tribal agencies. Much more than a data model, **NIEM offers an active user community** as well as a technical and support framework.

HOW NIEM WORKS

Common Language

(Community-driven Data Model)

Built and governed by the business users at Federal, State, Local, Tribal and Private Sectors

Repeatable, Reusable Process

(Information Exchange Development Lifecycle)

CELEBRATING A MAJOR MILESTONE ANNOUNCING THE LAUNCH OF NIEM 3.0!

As we celebrate the launch of NIEM 3.0, the NIEM Program Management Office (PMO) would like to thank the NIEM community for their active participation and feedback.

SO, WHAT DID IT TAKE TO LAUNCH 3.0?

The PMO thanks the NIEM community for your dedication to advancing the program.

GEO4NIEM BACKGROUND

The inability to transport, deliver, and exchange geospatial information for critical geospatial assets for prevention, preparedness, response, recovery and mitigation to all-hazards and all-threats increases the risk to the nation.

In collaboration with the Open Geospatial Consortium (OGC), the Department of Homeland Security, NIEM Program Management Office, and PM-ISE have partnered to enhance NIEM's geospatial exchange capability with the goal of improved information sharing of geospatial assets across all levels of government.
