IT Procurement Updates

Phil Pippert
Director, Supply Chain Management

CIO Council
May 8, 2013

IT Contingent Labor

Basic purpose

- Replace expiring Computer Aid Inc. (CAI) contract
 - Managed service provider (MSP) for staff augmentation
 - Deliverables based statements of work (SOWs)

Objectives

- Use experiences to build on the current program
 - Improve quality of candidates and engagements
- Update to align with industry practices
 - MSP manages subcontractors based on performance
- Cost containment

IT Contingent Labor

Project Status

- Current contract expires December 31, 2013
- Request for proposals (RFP) issued December 2012
- Proposals received January 24, 2013
- Currently in negotiations

Telecommunications Network Services

Basic purpose

- Replace expiring Verizon business COVANET contract for wide area network (WAN)/long distance services

Objectives

- Maintain service levels for long distance and other required legacy services
- Provide path to transition from end-of-life technologies to current/strategic services
- Cost containment
- Provide more options for Internet access
- Provide limited managed services options

Telecommunications Network Services

Project Status

- COVANET contract rates stabilized through FY 2014; one additional year available for transition
- RFP issued March 5, 2013
- Multiple large national carriers are actively engaged in the RFP process
- Proposals due June 4, 2013
